Available on request.

PROFILE

Enthusiastic and detail-oriented actuarial science graduate with a solid foundation in statistical analysis, risk modeling, and financial forecasting. I am proficient in R and Excel, and currently expanding my skills in SQL, JavaScript, and HTML. I am passionate about leveraging data to drive strategic decision-making, and eager to apply my technical expertise in a dynamic, data-driven environment. I am actively seeking an opportunity to deepen my knowledge in risk management within the financial sector.

EXPERIENCE

Vacation Student

KPMG, Johannesburg (November – December 2024)

Developed an actuarial tool for estimating Incurred But Not Reported (IBNR) claims

This experience helped harness my VBA skills.

EDUCATION

University of the Witwatersrand

Bachelor of Science in Actuarial Science (Feb 2022 – Dec 2024)

Relevant Coursework: Probability and Statistics, Financial Mathematics, Risk Theory,

Time Series Analysis

Achieved exemptions:

- Business Finance (A113)
- Actuarial Economic Modelling (A214)
- Foundation Actuarial Professional Practice (N111)
